Vopicka and the mem-bers of his staff and the American officers of the various missions here, the American legation today resumed omething like normal position. It had een cut off from contact with home since America went to war with Ger-

Eager faces bent over each of the bags as the clerk sorted the contents. Mr. Vopicka himself had received no direct news from his friends or relatives in Chicago since the early part of 1917. There was cheer enough for all in the courier's bag today. In the batch handed to Mr. Vopicka were letters dated in Chicago as far back as 1917. Capt. Joseph G. Morris of Chicago, a member of the mission sent here by Food Controller Hoover, headed the list of recipients with more than a hundred missives.

"Roumania must be considered the the Russian or Hungarian stamp," Mr. Vopicka said. "Roumania already has a large, reliable, and disciplined army to defend her frontiers, both in Bessa-rabia and Transylvania. In addition she now is mobilizing fresh forces so as to be ready when the bolsheviki on the Dniester decide to strike. But these soldiers urgently need food, shoes, clothing, and equipment of all

"Only the allies and America can supply these things. All indications point to the probability of a strong bolshevik offensive early in the spring. "I consider the situation in Russia very critical. The delegation was composed of Judge Julian W. Mack of Chicago and Rabbi Stephen Samuel Wise, Louis Marshall, and Bernard J. Richards of New York, members of the delegation o the Paris peace conference recently named by the American Jewish co

Here is the promise that was given to the delegation by the president:

"As for your representations touching Palestine, I have before this expressed my personal approval of the declaration of the British government regarding the aspirations and historic claims of the Jewish people in regard to Palestine. I am, moreover per-suaded that the allied nations, with the fullest concurrence of our own gov-ernment and people, are agreed that in Palestine shall be laid the founda ions of a Jewish commonwealth." At a massmeeting here tonight, to which Rabbi Wise and Judge Mack

went immediately after they had left the White House, Rabbi Wise said: "I believe that England should be the mandatory for the league of nations for the commonwealth in Palestine, and I, here and now, make the prophecy that Great Britain will accept it. He wrongs, slanders, and libels Great Britain who asserts that Eng-land in her attitude toward Palestine wants to spread out her dominion. I know that England will never accept a mandate over Palestine except in re-sponse to the mandate of the league of nations, and when England does accept such a mandate it will mean that the Jewish people of the world have again come into their rightful place in the world.'

The Sheraton Davenport A Colby Value

Colbys introduce a new Davenport. Offered as a special value to people who know and appreciate sincere furniture.

The upholstery is high-grade curled hair, double stuffed and hand laid over oil tempered steel springs.

There is no piecework, no cotton, floss, or other nearly good substitute for real upholstery about this model.

More than that, the seat cushions are made of small compartments, each filled with fine white

This sofa is low enough to use out in a room with the new davenport tables, and comfortable enough to more than satisfy every desire. A six foot man will find it long enough to recline on, and deep enough in which to rest.

The Sheraton is a typical Colby value, priced at about the cost of an evening gown, and it will lend distinction and luxury to your living room for at least a generation.

From experience we know that few cane davenports are comfortable, and most overstuffed davenports offered in sales are gross in outline. This model represents refinement, real workmanship. and good value.

Price, covered in Sateen.....\$122.50 Price, without extra Pillows.....\$115.00 Sheraton Arm Chair to match.....\$ 55.00

Fine Odd Sideboards Offered at \$69.00

WE OFFER a number of very handsome side-boards. The model illustrated is a typical example. Finished in dark walnut with figured burl walnut panels and interesting details. Many represent broken ten piece sets and enable the customers in search of a smaller set or odd pieces to save from 20% to 50% on their pur-chases. Servers at \$29.75 and upward. China chases. Servers at \$29.75 and upward. closets, \$39.00 and up.

Washington, D. C., March 2 .- [Spe ctal.]-A "Latin American league of nations" has been proposed in negotiations which have been going on since Christmas and which have reached such a stage that certain influential Mexicans and representatives of the Argentine republic have laid the pro posal before the governments of many tf not all Latin American states.

The objects of the league as stated in the arguments which have been made by its proponents are much in line with those of the world league which President Wilson has been advocating, with the additional idea of tecting all of Latin America against the United States.

See German Intrigue.

Convinced that behind the Latin American league idea is a clever Ger man propaganda which wishes partic-ularly to alienate the United States from the American countries to the south so that Germany will find the commercial reconquest of that part of the world easier when the trade was begins again, American citizens recently returned from Central and South America have laid their discoveries with regard to the negotiation before senators on the foreign relation

That everybody would be caught in bad trap, as they expressed it, if they should file a Harrison petition and the captain then would not be a candidate against Hoyne, was ex-plained last night to the zealous

In the event of a petition being filed it would have to be withdrawn by March 19 if Mr. Harrison declined to let his friends divide the independent field between him and State's Attorney Hoyne. But Mr. Harrison, it was pointed out, cannot reach Chicago by March 19, and the city clerk, it is understood, would not permit the withdrawal of the petition except on Mr Harrison's own affidavit.

Once the petition goes in, under the prevailing conditions, it could not come out and Harrison's name would to help redeem Chicago from the dishave to go on the ballot, whether he agreeable predicament in which it liked it or not. Some votes then would be wasted.

Harison Still at Toul.

It transpired yesterday that the famous telegram announcing Mr. Harrison's departure from Paris last week was slightly misinterpreted by some body. Mr. Harrison still is at Toul, up with the army. The telegram so stated and stated that he would not be in Paris before March 4.\ But as given already was in Paris and was leaving for home. The earliest Harrison could get home under present conditions would be about April 1-election day.

Mr. McKenna, after giving out a formal statement yesterday that there was nothing in the Harrison interview THE TRIBUNE yesterday that credited him with saying he would not run, decided to wait further developments and in the meantime will try to get the Harrison and Hoyne leaders together to make a final decision as to what should be done.

"I am as blind as anybody about Mr. Harrison's plans," said Mr. Mc-Kenna last night. "I don't know what Mr. Harrison intends to do and I don't believe anybody in Chicago does. I want to see Thompson beaten. He is a much stronger candidate than many believe. Sweitzer cannot beat him.

Harrison can. Hoyne might.
"Incidentally, I want to say that the Spearman Lewis interview with one of the finest I ever read. Every Harrison man in Chicago ate it up. It was immense."

Declares Election Possible.

As to the probability of a big cam paign being made for Harrison during his absence. Mr. McKenna said:

"Kansas elected a governor last fall while he was at the front in France New York elected a congressman while engaged in war activities in Italy, and there are tens of thousands of men and women throughout the city who

CITY POLITICS.

The primaries have left Chicago with Mayor and Robert Sweitzer as the Democratic candidate. hompson is a demagogue. Sweitzer is Roger Sulivan's man. Roger is a dear old soul and Mr. Sweitzer is an amiable person. Roger represents ras and various public utilities.

The Thompson-Sweitzer issue was fought out our years ago, and Thompson cleaned Sweltzer with the precise and meticulous violence of a righ wind taking the shingles off a decayed farm

It is a practical situation which confronts the oters of Chicago in their city election, and at gogic Thompson and the gas labeled Sweitzer of Prof. Hemenway indicate the contrary. That plus State's Attorney Hoyne and it was thought, it is profitable is shown by a production of more intil yesterday, at least, the possibility of Carter than a half billion dollars' worth of food. It is I. Harrison.

Mr. Harrison cannot come at the eleventh hour ind finish in the same year with his opponents. Harrison would be a good candidate if he were tunning now. It happens that he is just announcng his intention to remain in Red Cross service

Mr. Hoyne has been organizing his campaign for everal months. He is to run as an independentot as an independent Democrat but as an indeendent. He remained out of the primaries in rder that he might have this unchallenged right of candidacy.

He is a vigorous campaigner. We do not say hat he is a fair haired boy who would meet the inqualified approval of the City club. But he is measurably a better candidate than Thompson Sweitzer, and if he is allowed to make the race vithout the embarrassment of another independent

Article XV. provides that "if there should arise between states members of the league any dispute likely to lead to a rupture, which is not submitted to arbitration as above, the high contracting parties agree that they will refer the matter to the executive council."

The only meaning of these explicit declarations a rupture must go either to arbitration or to the executive council for decision.

If Mr. Wilson understands otherwise the country is entitled to an explanation of the basis for his understanding. There is no basis in the phraseol ogy of the covenant. Chicago, March 1 .- [Editor of The Tribune.]-Many of our brave boys returned from service are becoming discourage and embittered because they cannot find jobs. Some of them have been many weeks begging, practically, for work.

When these Chicago boys voluntarily gave up good positions to defend Amercan citizens from such martyrdom as Europeans have experienced loud were the calls for women to come forward and show their patriotism by alling the positions that our young men had vacated. The women responded enthusiastically They soon qualified themselves to take the places of men and frequently at less

What are these women and their employers doing today? The women are still holding down those jobs. Many of them got along all right without going out to work until they were called upon to help win the war. Many of them have fathers or husbands who can support them, as they did in ante-bellum days. As for the employers, they are keeping the women because they do not have to pay them men's wages.

Is this the reward for our soldiers and sailors to receive for protecting us from unspeakable horrors?

TI THAT SORT OF MEN are coming down to the wholesale district to order clothes from you?"-a friend asked us the other day.

.We'll answer that question publicly.

Among your acquaintances, there is one man who stands out in your mind as a twelve-cylinder genius in buying and trading.

He has an uncanny faculty for making one dollar do the work of two. He seems to know intuitively the exact places to go to get the biggest value at the least cost.

Ask that man, next time you meet him, where he orders his clothes. Chances are, he'll show you the Royal label on the inside pocket of his coat.

These are the sort of men who are coming down to our wholesale plant in legions to take advantage of our hometown retail service. We are selling the smart traders of Chicago.

Few of these men come down here because they need to save the money. Many of them are men of high financial rating. But they come down here because they enjoy the thrill of putting over a good trade.

Neckwear--Novel and New Dress Details Vastly Important

Not in many years has there been a time when neckwear loomed more important in the fashion horizon.

For this new season, modes place their dependence often in the gay, enlivening touch given by the correctly chosen bit of neckwear.

Gilets Are First Favored

They are of pique, of satin, of tricolette with vivid embroidery or clever little pockets-and they vary in price from \$3.95 to \$22.50.

Georgette crepe pleated bib sets in white, flesh color, red or old blue, \$2.95.

Collar and cuff sets, pique, organdie or lace, many beautifully embroidered, are priced \$1.25 to \$7.95.

Millinery of Spring, 1919 In French Room Interpretation

The canvases of old masters once more are the source of millinery inspiration. The piquant tilt of the hat of a Watteau shepherdess and the more formal fashion of the day when an Empress became a "citizeness" form the underlying themes upon which Spring builds her modes.

As these hats come from the hands of our own modistes, they show a masterly un-derstanding of these period mode motifs, originally interpreted. Crowns are made of flowers in dull blue and rose tones, exquisitely blended. Loops of dark velvet are placed beneath pastel-tinted brims.

Ostrich glycerined and the wonderfully fine "crin" braids are used together in hats designed for dinner and restaurant frocks. These and many more are having their introductions at this occasion.

Buy her a Federal Washer And Get This Attractive Floor Lamp Free—Pay Only \$5 Down

MERICAN housewives learned a never-to-be-forgotten lesson in efficiency from the war. Thousands of them went into factories to do their share. On every side they saw time-and labor-saving machinery. These women have now returned to their homes and to them they have brought the gospel of efficiency, so well developed in American industry. And why not? All things considered there is probably more reason for a FEDERAL Electric Washing Machine in the home today than there is for an efficient piece of machinery or a labor-saving appliance in the factory.

The FEDERAL Doubles the Value of Your Time

Lack of time and strength to perform the many routine duties of the home have often prevented the housewife from making her home the pleasant, cheerful-looking place she would like to have it be have proved a handicap to her in taking her rightful position at her husband's side.

The FEDERAL overcomes these two greatest drawbacks-for it brings to the woman time and strength-it makes two hours where only one existed before—it saves and conserves time—labor—health—clothes—money. Its economy is unquestioned, for it does better work than human hands-is 100 per cent reliable-never complains or laments-never tires, leaving washing half done-is never late.

Whether you do your washing yourself or have it done—if you are not using an Electric Washing Machine it is costing you twice as much as it should—in time—in energy wasted—in impaired health—in actual cash loss through premature wearing out of clothes,

One of Electricity's Greatest Blessings

The average man is not at all familiar with these facts, nor with the gruelling hours which a woman actually experiences in doing the washing over a tub. There is no greater problem in the home. And so, by mastering it completely-by turning drudgery, pure and simple, into a pleasurable hour, it can truthfully be said that in all the history of Electricity, the Electric Washer stands out as one of the greatest benefits ever conferred on the women of the home.

With a FEDERAL Electric Washer no woman needs dread washday, even though she may not have a servant or a laundress. There is nothing in the whole operation of a FEDERAL which savors in the least of drudgery. Its use entails even less work than running a sewing machine.

So simply and easily is it operated that thousands of women who would never have consented to do their own washing before the advent of the FEDERAL now gladly supervise its work, knowing full well its manifold advantages. Their testimonials place the universal seal of approval on this modern happy home-maker.

Makes the Maid Happy and Contented

If you have a maid or a laundress the ownership of a FEDERAL is a step in the right direction, for help invariably remains loyal to the woman who has the foresight and good judgment to provide a FEDERAL Washer. There are no disagreeable hours over a hot, steaming tub - no bruised fingers - no aching muscles to remind them for days of their washday toil. They are as cheerful and fresh when the washing is finished as at the start. Clothes, snowy-white, clean and sweet are on the line in short order.

How the FEDERAL Is Operated

Operation of the FEDERAL is a simple matter. Merely place the clothes in the cylinder, pour in the hot water, push a button, pull a lever, wait the ten or twelve minutes required for a thorough washing of a tubful—six sheets—twenty-four napkins—twelve or fifteen towels, etc.—and there you are.

How the FEDERAL Is Made

If we could take every reader of this advertisement through the factory in which the FEDERAL is made, we could quickly convince them of its mechanical superiority. Only expert workmen build the FEDERAL and only the highest class of material is used. Every gear in the driving mechanism is carefully machined. Each individual machine is subjected to a rigid test for hours under actual washing conditions. No machine is permitted to leave the factory which does not com-pletely measure up to this exacting test.

Thus you can see why the manufacturers so liberally guarantee the FEDERAL, assuring you mechanical perfection of construction and the utmost in actual washing machine value.

Thousands of Chicago women are proud owners of FEDERALS sold through our ELECTRIC SHOPS and the prestige of this Company is but another indication of the high standard represented in the FEDERAL Electric Washer.

Now, more than ever before, you need a FEDERAL - and now is the time to buy. Come in and see special demonstration in the stores of Electric Shops. It will help con-vince you that the FEDERAL Electric Washer is one convenience that you should not be without in your home.

Dr. Smith Ford Resigns **Englewood Pastorate**

The Rev. Smith T. Ford, for the last fourteen years pastor of the Englewood Baptist church, announced his resignation to his congregation yesterday, to take effect June 1.

"I have been forty years in un-broken work in the pastorate," said Dr. Ford, "and I feel I need a rest. I was out of the pulpit seven months because of liness. You were kind to me and welcomed me back, but I feel the responsibility is too great for me

the responsibility is too great for me to carry longer than necessary.

"During my pastorate I have received 1,700 members into the church and the church has now a membership of 1,925, the largest resident membership of any Baptist church in the Chicago association. Our service flag had on it 260 stars, nine of which have turned to soid."

pounding the plot in song and exercis-ing no profound strain on either the intelligence or the discrimination of the observer.

"The Girl Behind the Gun," I suspect, is one of those things a prodigal roducer puts on when he has a certain amount of money to spend and doesn't know precisely what to do with it. In this instance the dependable expedi-ent of making over a French farce has been resorted to, the source of the entertainment being "Madam and Her Godson," written, while the war was still on, by Maurice Hennequin and who appear to have found jokes about infidelity a piquant relief from thoughts

Their tale is an easy variant of the familiar one about the autocratic uncle who turns up unexpectedly, finds an adored relative making love to the wrong person, and must be placated with a dubious masquerade. You re-member it in "Madame Sherry" of urse, but it's older than that.

Here it involves two French soldiers on leave, one in disfavor at home because of discovered dalliance elsewhere, the other intrigued by a counter-flirtation set up in revenge by the recalcitrant one's wife. Uncle blunders on this flirtation, the remaining helpmee of the quadrangle appears to compliate matters, and so it goes.

Nearly twentyfive years ago the news that Mme. Mary E. Plummer-Clemenceau had died was passed from friend to friend. Some years afterward newspapers of the United States picked up the re-

port of her death. But neither in France nor in Amer ica was there printed an announce ment of her death, so far as her friends recall. Nor in the files of press clippings dating back to the time of her marriage is there discovered

any authentic story of her death. Mrs. Plummer-Clemenceau was liv ing last September, for she wrote a postal card to a friend at Durand, Wis. her former home. The card is now in the possession of E. S. Pattison, attorney, living at Durand, according to a letter written by him to THE TRIB-

CHAPLAINS AT GREAT LAKES FAVOR BOXING AS A SPORT

CLERGY OF NAVY ADMIT GAME HAS HELPED SAILORS

Service Bouts Convince Many That Manly Art Can Be Kept Clean.

BY HARVEY T. WOODRUFF. In an effort to ascertain the attitude of army and navy religious in-

structors toward the pending boxing bills under consideration by the legislature at Springfield, THE TRIBUNE asked the sporting editor of the Great Lakes Bulletin, official newspaper of the enlisted men at the naval training station, to poll the chaplains for an expression of views. The interviews presented were collected by E. Thomas Lark.

The Great Lakes chaplains are ous, apparently, for boxing as pretend to tell the legislature what is best for the entire state, but they do tell of the benefits derived from the sport by men in service. This benefit will be lost to boys from Illinois when they leave the station, for boxing shows are illegal in Illinois except on government property, where the state

No Bouts Away from Station. Even harmless exhibitions away from the station, which the boys had learned to enjoy, have been prohibited by an order of Secretary Daniels in response to a protest filed by a Chicago minister.

Many former opponents of the undesirable features of profession pugilism have been convinced by the bouts in army and navy camps that the sport can be regulated so that it will be kept clean and at the sam time afford public entertainment. That is the object of the bills at Springfield. Only such a bill will have the approval of Gov. Lowden. Opposition Is Divided.

Even the opposition is divided in its stand. One branch approves a bill and decisions and providing heavy gloves. Another set of clergymen op

Boxing then was in its infancy at the station in charge of Schumaker, a petty officer When the latter was ordered to sea, Kennedy was placed in charge. Kennedy took keen interest in his work and organized his depart

ment so thoroughly that he was commissioned ensign. He took his best boxers off the station and gave exhibitions for the Knights of Columbus, various clubs and other worthy causes. Later he was appointed lieutenant j. g., and a short time ago was commissioned a lieutenant s. g. He is a strong advocate of the boxing bill pending before the legislature.

In addition to developing boxing, Lieut. Kennedy was always present at every athletic meet in which a station team was a contender. He led the blue jackets cheers at the football and baseball games and Annapolis last fall when the Great academy eleven, 7 to 6.

STECHER AND LEWIS TO GRAPPLE TONIGHT TILL ONE MAN'S DOWN

BY HARVEY T. WOODRUFF. Joe Stecher of Nebraska, formerly of Great Lakes, and Ed Lewis of Kentucky, formerly of Camp Grant, will meet tonight at the Coliseum in what is advertised as a finish wres tling match.

The conditions call for best two of three falls with the proviso that if no fall has occurred within one and one half hours, the result shall be deter mined by the first fall. The public is promised the return of its admission money if the bout goes to a stalemate draw. Martin Delaney of the Chicago Athletic association, who has been called into service as referee to still any skeptics of the intentions of the grapplers, has announced he will not give a decision on points.

Will Start It Early. Were it not for these conditions, the pectators would seem to be in for as uch punishment as the grapplers In their last three previous matches Stecher and Lewis have wrestled three draws, consur without a fall. Two of the bouts were of two hours' duration, and one of five hours. Because of this possibility, the men will be called to the mat a

On the advance dope, Stecher is figured as the early aggressor with Lewis waiting for the former champion to tire before he takes the initiative. When the writer last saw Lewis in action, he appeared a strong defensive man whom it would be hard to flop, but lacking knowledge of offense to pin a man like Stecher unless the latter was almost all in. Manager Billy Sandow says Lewis has learned offense since then, while there is just a suspicion that Stecher is not as formidable as before his defeat by Caddock. Nov. 11 to Dec. 9, inclusive; may be changed by present legislature. [4] Not probable, but possible; some states now prohibit their use. Big Jim Vaughn will be back pitch ing for the Cubs this season. The sturdy southpaw, leading hurler of the National league last season, came to Chicago yesterday from Kenosha where he has been employed in the Nash motor factory. After a talk with President Mitchell he apparently came to terms on his contract, for he intends to leave tomorrow for Hot Springs, Ark., to begin getting in shape to pitch he opening game.

A few weeks ago Vaughn came here but refused to accept the terms offered by the north side club, returning to his job in Kenosha, with intentions of staying there all summer

Vertical filing was originated by Library Bureau 27 years ago. The system worked so satisfactorily that a vertical filing cabinet was exhibited, more or less as a curiosity, at the World's Fair in Chicago.

Before Library Bureau originated vertical filing, everybody filed letters and important records on hooks, in boxes-"in any old way."

Then, the office boy did the filing when not out on errands. Today, filing has become a profession—an important part of business—in charge of responsible employees.

Business efficiency owes much to the innovations of Library Bureau. Not simply because it originated vertical filing, or the card index system, or counter-hight units, or the card 8 record desk, or the L. B. Automatic index, but because it has kept on improving and adapting the L. B. Idea for 43 years.

It matters not at all whether you do business in a single office or a plant that covers acres—the L. B. organization is equipped by study and experi-

Library Bureau is the world's largest manufacturer of card record and filing equipment. Its very size and its experience are your safeguards in the present changing over from war to peace.

as meats and kindred products, Chicago and the central west do not appear to be getting a proper share or proportion of the after war export less. This is caused largely by the fact that to the foreigner, especially in the newer markets of the world which can be looked upon as at least partially open at this time, America is either New York or San Francisco.

It is surprising to us here that a mission from Japan or China should consider New York the center from which to purchase even the articles produced in the central west and merely pay a flying visit to Chicago. This, however, is an actual fact and emphasizes the need of greater publicity for Chicago and the valley as the real producing Mississippi variey as the real producing section of the country. The fact is that a publicity propaganda of this character abould have been undertaken long ago and dare not be further delayed.

Huvers from foreign lands who have

before going east have returned from New York with the conviction that they can be better served by coming inte direct contact with the manufac-turers and producers here than through agencies or commission houses located in New York, many of whom in turn Direct Contact Needed.

The removal of restrictions placed upon foreign trade during the war, however, naturally affects the seaport cities Nevertheless Chicagoans interestin foreign trade could expedite this by concerted action. To this end I beall of the houses interested in formerce should organize a fortrade association. This matter has near future. Such an association ald also work for the elmination of

Only in this way will it be possible for us to bring about a normal movement under which Chicago and the entral west will not be placed at a disadvantage as compared with port cities.
The laws under which both the national and state banks operate make it prac-tically impossible to undertake what is known as foreign mercantile banking. Such organizations, with strong financial backing, are quite essential for the car-rying out of a large international trade program, and should be brought into

program and should be brought into being without further delay. Cooperation Required. Our efforts up to the present have been

confined almost exclusively to Individual initiative. Cooperation on the part of at least groups of houses or institutions vould greatly facilitate the development of commerce with other countries. The organization of the Mississippi valley association, I believe, is a step in the right direction. This organization will hold its first regular convention in Chi-cago on April 23 and should have the support of every association, institute and organization in the valley.

EXPORTERS or importers now engaged in, or thinking of, trade with China would do well to consider not only the special nature of our facilities, but also the personal interest we take in every one of our customers' transactions.

First of all, we offer direct banking service -without intermediary dealings, or unnecessary delays.

Equally important is our personal service. Every transaction is followed through, both here and in China, by our own representatives, with a personal interest, the value of which is evident in the service rendered.

May we talk with you about China?

Selecting the Right Filing Plan

Business history records no greater human weakness than that which permits the installation of a filing service wholly unsuited to fit the need for which it was purchased.

No such condition has ever been known to exist where an Amberg indexing plan was installed and maintained. This success is based on the Amberg policy of judicious sales service which permits an Amberg installation only after the requirements of the business have been satisfactorily determined—

For over half a century the name of Amberg has symbolized the acme of perfection in indexing and filing service. A leadership of such duration can mean only one thing. An Amberg Analysis will show how the basic laws of indexing can be applied to the filing problems created in your business.

Amberg Cabinets, wood and steel, are standard -- and the Indexes fit any make of cabinet. Send for "Applied Indexing," a book for business executives.

New Purple Has Arrived in Veils

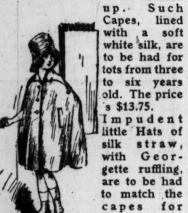

THE new Eminence purple, originated in Paris but a few weeks ago, has come to the Store and is to be had among the latest arrivals of the French Veils. Price \$7.50. It is a shade that was invented as a request from the French Government for a gift to Cardinal Mercier in recognition of his great work in Belgium.

It is the perfect blending of blue and red and rose and purple into this single rich and glowing shade of purple. The first time it was seen in America was in the small turban Mrs. Wilson wore when she landed in Boston. Other French Veils recently arrived are to be had in the new dust color and in seal brown and navy and black. These are silk with the hexagonal mesh, which have deep diagonally lined borders combined with chenille dots. They are fully 24 inches wide that they may fit any size hat and that they may give the voguish effect of the crushed folds about the throat. Price \$3.50 and \$6.50.

For Every-day Wear Play

Little girls need something more practical than pink broadcloth, and so it that little Coats of the serviceable navy blue serge are much in order. Here is one lined throughout, light enough for Summer and yet plenty warm for early Spring. Two narrow serge bands form a belt and give an individual touch to the Coat. And there is a white pique collar, hand-embroidered, easily detached for laundering. Price \$15,

Juvenile Floor, the Fourth.

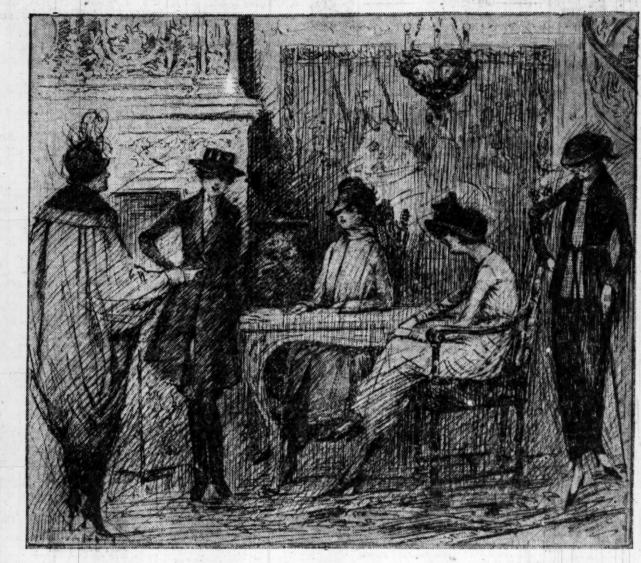

"Priscilla" Voile Frocks

THESE moderately priced Voile Frocks are pretty enough to keep on for tea or even to freshen up at home in the evening. They are in black and white stripes, and in blue with small white figures. The collars are white organdie in the round neck or the semi-square neck. The Skirts are plaited and wide belts have sash ends. You will like them. They are specially priced at \$7.50. Sixth Floor, Wabash Avenue.

There's Charm in the Cheney

THE charm of the Cheney Phonograph, musical and artistic, enhances with years. Its tone grows more mellow and richly resonant with time, like that of a rare violin. Those who have not heard this instrument are cordially invited to visit the Phonograph Section. Prices, \$75 and upward.

March Introduces with Spring

New Apparel for Women

A LTHOUGH March is often undecided whether to ape the bygone wintry months or hasten the balmy days of Spring, it surely brings new merchandise, giving the Women's Apparel Sections the gay aspect of sunnier hours. Here are tailored Habits; handsome Coats and Wraps; Suits, important in Spring wardrobes, and Tailleurs perfectly tailored.

A Habit for Her Who Rides Well

THIS is developed from a fine gray wool cloth into an English fitted coat with a flaring skirt, possessing just the dignity a horsewoman enjoys. The breeches button snugly above the boots. Pictured second from the left, \$75. Smart riding Hat, of shiny hatter's plush, \$13,75.

Riding Stocks of pique, \$1.25. Women's and Misses' Sports Apparel Section Sixth Floor, Wabash Avenue.

Trim Little "Chokers"

THESE, of soft fur, are promised exceptional vogue, fashioned as they are to accompany the new suits or trotteurs. Made of single or double peltries, they clasp closely about the neck. Sixth Floor, Wabash Avenue.

New Evening Models

Have Exquisite Colorings

ONLY an artist could have designed an evening gown such as one shown in the Women's and Misses' Custom Apparel Sections. It is created of orchid metal cloth with a veiling of Hydrangea silk net embroidered with orchid beads falling over the bodice and forming such excuses of sleeves as it has.

A new and graceful wrap has a line that falls straight from the wrist. Following the mandate that Summer wraps must have fur, this takes disk shaped fur cuffs and a flat collar. The model may be copied or modified to suit individual preferences in the same fabrics-novcity weave tricolette lined with

Ninth Ploor, South Room.

At a Most Congenial Saving Sheets and Pillow Cases

STURDY and well wearing are they, yet soft Laundering will not coarsen or yellow them, but make them even softer and whiter. The sheets are the double bed size. The Pillow Cases are the standard size. Plymouth Sheets, 81x91, \$1.80. Plymouth Cases, 45x381/2, 50c. Second Ploor, North Room.

It's a Season for Suits

NAVY tricotine, excellence in suiting, makes the handsome box-jacketed Suit pictured at the right-with a gathered effect in the back and a vestee of sand silk. A braid tie belts it, and its cuffs are split open to be fastened with the same double buttoning that holds the Peter Pan collar closed at the neck. \$97.50.

A Spring Coat of Covert Gabardine

HE one pictured in the center selects silk stitching and buttons to finish the ends of the scarf collar and the large pockets. A belt buckles smartly about the waist. Also in tricotine. \$87.50. A Wrap of dust colored, black or navy tricotine combining shawl lines with the empire line in front, is pictured at the left. \$67.50.

But Frocks Hold Important Place

THIS one would readily concede after viewing the tan Poiret Twill Trotteur second from the right. The designer has made many vertical slashes on each side, picot-edged them, and underlined them with satin, and this original motive has been carried to the front of the bodice. Many buttons complete this ef-

Skirts Are Made Gracefully Narrow

LEW Skirts attain the graceful new lines as well as those of fine, soft jersey. One style in that fabric is made especially chic with rounded overhanging pocket flaps weighted with large pearl buttons, \$17.50. Or there is tricolette fashioned in a plain style, such as one novel weave of many colors, priced at \$40.

When Dreams of French Couturieres Come True

WITH the return of the graceful afternoon gown, the designers of Hats again feel free to choose the lovely stuffs of their fancy. So it is that Chantilly lace, with under ruffles of net and a crown of taffeta, makes a charming Hat following Directoire influence. Or the Hat pictured, guided by the same influence, is hand-sewn tan braid, underlined with a soft cerulean blue, and banded about its crown with pink blossoms, blue berries, and wisping bits of ostrich, \$45. A decided artistic touch has pervaded the Salon Français.

Here's a Timely Trio of White Blouses for Spring Suits

GRACEFULLY rounding and becoming is the line produced in the Blouse with the circular neck. Valenciennes pattern lace makes quaint panels in the collar and forms a border which has been embroidered with tiny hand-made dots, \$8.75. The material is voile.

collar falls from the back in loose folds and flares so prettily at the turn-back. \$15.

Georgette Crepe is the Blouse Narrow Valenciennes lace lends with the semi-square neck whose charm to the dainty little Blouse pictured at the right, which is also of Georgette Crepe. There ends. The cuffs are the French is hand embroidery in the yoke and cuffs. Price \$22.50.

> To Vary and Flatter The Neckline ARE these

Collar and Cuff Sets such as the one pictured. It is a deep cream organdie with a French cut hem turned back and embroidered, and insets of filet lace. \$12.50.

Colored organdie has a refreshing way of choosing puffings of net to effect smart Collar and Cuff Sets. \$1.25 to \$3.75. Or colored cross-barred voile is so good in itself that it needs only a tiny lace edge to finish it.

There are many pretty fresh Collars in net, organdie, Georgette, and pique which are priced from 50c to 95c, and similar Collar and Cuff Sets from 65c to 75c. First Floor, Middle Room.

"Swiss Organdies Are Going Big."

So says Paris. So says the world of dainty fabrics. And already there is no sheer material in the White Goods Section that is being purchased with more avidity. Organdies made by the Swiss are of lasting satisfaction—that is why they are in such demand. Only the Swiss know how to give to the snowy whiteness and crispness of organdie a permanency which never vanishes no matter how much laundering it goes through.

A special March selling of Plain white Swiss Organdie can be had for \$1.25, almost less than importation price. The delicate weave of this piece lends itself with equal prettiness to frock, blouse, vestee or collar and cuffs. The width is 45 inches, a saving in itself.

Second Ploor, Middle Room

A GOOD DEAL of our constructive merchandising has been suggested by customers. Flattery is a poor aid in building a business: wholesome suggestion makes progress.

In years gone by women found difficulty in making garment alterations because of lack of material in the garment.

Today we specify deep seams, so that apparel can be repaired or altered readily.

Like many another, this is a precious trifle-in. spired, perhaps, by a patron's suggestion.

We welcome suggestions; our customers make our Store.

Gingham Is the Fashion; See This Exhibit

O N the Second Floor, Middle Room, there is placed on view a collection of all this season's newly designed Ginghams, many from Scotland. It is Gingham week in the Fabric Sections.

What lovely Ginghams! You could scarcely believe that the designers could evolve so many plaids, checks, and stripes in so many attractive color combinations. To pair off all possible color combinations and sometimes add a third color-yellow, blue, or gold-would give but an idea of this resplendent collection. The prices are interesting to every one, beginning as they do at 38c to
